Prepare both a summary paragraph and a general description of the resource and its various elements as it exists today.

The G. W. Snouffer Property (I) is located at the end of a long dirt road leading from Rock Hall, east of the town of Point of Rocks in southern Frederick County. The property is shown on the 1873 Lake atlas of Frederick County, and on a current U.S. Geological Survey quadrangle map, but its existence and present condition have not been verified by field inspection, due to its inaccessible location. If no structures remain, this could be a possible historical archeological site.

Prepare both a summary paragraph of significance and a general statement of history and support.

The G. W. Snouffer Property is significant at this time primarily for its local historical associations with G. W. Snouffer, a large landowner in the Point of Rocks area. The property is identified as that of Snouffer on the 1873 Lake atlas of Frederick County. The architectural significance of any structures on the property is difficult to evaluate at this time because of the inaccessible location. The property has not been field checked to determine the type and number of any structures which may remain as indicated on a current U.S. Geological Survey quadrangle map. If no standing structures remain, then the site could be evaluated as a possible historic archeological site.

Snouffer, who owned many other properties in the area, is listed among the leading businessmen and farmers of the county in the 1873 Lake atlas, and his date of settlement is given as 1824.
